

# Petra Contact Cleaner

## PN 9001 (10oz) Specification Sheet

### Product Description:

Petra Contact Cleaner is a must for any shop or garage. This cleaner is designed for use on sensitive electronic equipment and when long-term protection from oxidation is desired. Petra Contact Cleaner reduces contact scrubbing and reduces connection wear and abrasion failures. It protects and deoxidizes IC's, connectors, jacks, relays, contacts, switches, plugs, batteries, controls, potentiometers and is plastic safe.

### Advantages & Uses:

- Instantly removes oil, grease, dirt and flux
- Harmless to most plastics
- Leaves no messy residue

### Features:

- Prolongs life expectancy of electrical components
- Helps prevent contact failure or malfunction
- Reduces contact scrubbing
- Minimizes contact wear and abrasion
- Protects and deoxidizes most electrical components
