

Petra H/A Type Power Steering Fluid

PN 7005B (64oz) Specification Sheet

Product Description:

Petra's Power Steering Fluid for Honda/Acura is a premium quality power steering fluid and conditioner that is suitable for use in Honda/Acura power steering systems. It is formulated with premium quality naphthenic/paraffinic base lubricants and a carefully selected additive package to provide enhanced performance in Honda/Acura power steering systems. It is formulated to be non-foaming and non-corrosive. Petra's Power Steering Fluid for Honda/Acura is designed to keep power steering units clean and to reduce wear and valve noise over a wide temperature range.

Advantages & Uses:

- Specifically designed for Honda/Acura power steering systems
- Keeps power steering units clean
- Reduces wear and valve noise over a wide temperature range
- Non-foaming and non-corrosive

Features:

- Protects against wear, oxidation and corrosion
- Helps restore quiet, smooth steering control
- Conditions seals and hoses
